(A Division of SBS Biotech)

Introduction

SBS Biotech was conceived & established not so long ago but as early as 2007, by a team of young entrepreneurs endowed with restless energy, high ideal and a spirit to make a mark in the field of pharmaceuticals.

Within a short span of just 7 years of its inception SBS Biotech achieved a combined (SBS Unit 1 + SBS unit 2) sale of Rs 410 Crores. Not only this, SBS created history by selling a single brand of its OTC portfolio to another corporate entity for Rs 1651 crores.

SBS has four segment specific divisions under its portfolio i.e. NEURO LIFESCIENCES with 230 products, SHREYA GERICARE 200 products, SBS VISION 80 products & KRIDAY PARENTERALS 110 products. SBS Biotech has PAN INDIA presence.

Consistent up-gradation of manufacturing facilities and quality consciousness of highest order are the principle of business at SBS Biotech. Provision of life saving remedies at affordable prices is the hall mark of SBS Biotech.

Mission

We at Neuro Life Sciences (Division of SBS BIOTECH) are driven by a missionary zeal to improve the quality of life of neuropsychiatric patients by developing novel formulations that address the unmet medical needs in neurological and related central nervous system disorders. Our core objective is to develop innovative life altering medical solutions for patients facing debilitating often serious mental disorders.

Vision

Our vision is to build "SBS BIOTECH" into a world class speciality Pharma company with presence across the globe through organic growth and through acquisitions which are aligned with our strategy. We continue to develop business and maintain high standards of ethics and responsibility which are central to the way we operate. Our vision is to create better every day life for humanity. Our business principles support this vision by offering the best at affordable prices.

Quality

At SBS Biotech statutory requirements for manufacturing facilities and controls alone do not guide the quality assurance, but far more complex, fool proof protocols and standard operative procedures are followed to ensure the quality of international standards.

Highly experienced & technically qualified personnel are employed to supervise formulations processing, testing & packaging backed with state of art plant and machinery, where strict adherence is maintained in following SOP's prescribed by **WORLD HEALTH ORGANIZATION**. Regular production audits are carried out to ensure that there is never a deviation from the laid out principles of best manufacturing practices at global level. Quality assurance is practiced like a religion at SBS Biotech.
